THE HOLY ART

## CABIN FEVER

Monday, June 14, 2021 to Monday, June 21, 2021

Cabin Fever is an exploration of meandering thoughts. Each photo reveals a constructed character and the world they live in, isolated and content. In 96 square feet I've reimagined the space into something otherworldly, exploring topics in my day to day life and digesting them through the series. The result, a patchwork of reality and daydream. Living in a rural island community has given me a plethora of examples of oddballs, oddities and time spent alone to stew in my thoughts. Cabin Fever is the combined work of five years experimenting in my studio located in the forest.
