

THE HOLY ART

## "BUBBLE WRAPPED"

Friday, November 19, 2021 to Friday, December 3, 2021

Alma Rosaz is a fashion and music photographer based in London. Her practice explores the artistic and quirky sides of photography. She is currently focusing on colourful and distorted portraits touching on cultures, gender performance and identity. She lived in many countries such as Nigeria, Norway and Indonesia, and is the daughter of a painter which strongly participated in educating her eyes for all sorts of arts, colours and cultures. Her fascination for staging and storytelling is translated by the use of props, composition and the habit to change the people she photographs into her own characters. Her most recent clients include Adidas, Universal Music, Daily Paper, The Ragged Priest, and Underground UK.
